Section 15.04.390 Construction drawings.

Complete and detailed construction plans and drawings of all improvements shall be submitted to the County for review prior to receiving final plat approval from the County and commencing construction. No construction shall be started until plans have been checked and approved by all responsible parties including any sewer or water districts which may be involved. (Ord. 5-1988 § 1 (part): Development Code 4-1-2)
